

Max Planck International Research Network on Aging

*MaxNetAging Conference, May 16-19, 2017, at the Max Planck Institute for
Demographic Research, Rostock, on
Longevity: Future, Present, Past and across the Tree of Life*

Schedule

Pre-Conference Workshop--

Monday May 15 and Tuesday morning May 16:

Advances in Research on Centenarians and Supercentenarians

Afternoon May 16

14:00-14:30	Registration	
14:30-15:00	Introduction to the Conference	James Vaupel

Longevity in the Future: Forecasting Models I (Chair: Jim Oeppen)

15:00-15:25	Forecasting age-specific mortality by forecasting life expectancy	Marius Pascariu
15:25-15:45	Estimating age-specific mortality from a single number—life expectancy at birth	László Németh and James Vaupel
15:45-16:00	Discussion	Søren Jarner
16:00-16:15	General discussion	
16:15-16:35	<i>Coffee Break</i>	
16:35-16:55	CoDA forecasts of age-specific mortality	Marie-Pier Bergeron Boucher
16:55-17:15	Forecasts of age-specific mortality based on shifting death distributions	Ugo Filippo Basellini
17:15-17:35	Comparison countries	Søren Kjaergaard
17:35-17:50	Discussion	Daria Ossipova
17:50-18:05	General discussion	

Morning May 17***Longevity in the Future: Forecasting Models II*** (Chair: Søren Jarner)

9:00-9:25	Including smoking and mortality delay in mortality projections	Fanny Janssen
9:25-9:50	Mortality forecasting with standards	Heather Booth
9:50-10:05	Discussion	Jim Oeppen
10:05-10:20	General discussion	
10:20-10:40	<i>Coffee Break</i>	
10:40-11:10	Forecasting mortality by SES	Malene Kallestrup-Lamb and Søren Kjærgaard
11:10-11:30	Generalized extreme value mortality models	Anthony Medford
11:30-11:45	Discussion	Joseph Lu
11:45-12:00	General discussion	

12:00-13:00 Lunch and**13:00-14:00 1st Poster Session****Afternoon May 17*****Longevity Today*** (Chair: Jacques Vallin)

14:00-14:30	Matrix methods to analyze healthy longevity, illustrated by data from SHARE	Hal Caswell and Virginia Zarulli
14:30-14:55	The postponement of decrepitude, based on an analysis of data from SHARE	Linda Ahrenfeldt and Rune Lindahl-Jacobsen
14:55-15:20	Health trajectories of centenarians	Gabriele Doblhammer-Reiter
15:20-15:35	Discussion	Malene Kallestrup-Lamb
15:35-15:50	General discussion	
15:50-16:15	<i>Coffee Break</i>	
16:15-16:40	Male-female differences in lifespans	Anna Oksuzyan
16:40-17:05	Redistributing work over the life course	Francisco Villavicencio and James Vaupel
17:05-17:20	Discussion	Graziella Caselli
17:20-17:35	General Discussion	

Morning May 18

Longevity in the Past (Chair: Rune Lindahl-Jacobsen)

9:00-9:25	Lifespans in the past estimated using skeletal data	Jutta Gampe
9:25-9:50	Skeletal ageing and selective mortality	Jesper Boldsen and George Milner
9:50-10:05	Discussion	James Vaupel
10:05-10:20	General Discussion	
10:20-10:50	<i>Coffee Break</i>	
10:50-11:15	Male vs. female life expectancy in the past	Virginia Zarulli
11:15-11:40	Origins of the life expectancy revolution in the mid-19 th century, with a focus on urban-rural differences	Catalina Torres
11:40-11:55	Discussion	France Meslé
11:55-12:15	General Discussion	

12:15-13:15 Lunch and

13:15-14:15 2nd Poster Session

Afternoon May 18

The Pace of Life and the Shape of the Distribution of Lifespans

(Chair: Rosa Gómez-Redondo)

14:15-14:40	Life expectancy and lifespan equality: A long run relationship	José Manuel Aburto, Ugofilippo Basellini and Søren Kjærgaard
14:40-15:00	PASH: Pace and shape analysis in R	Jonas Schoeley
15:00-15:20	The pace of life and the shape of aging in <i>Drosophila</i>	C. Ruth Archer
15:20-15:35	Discussion	Roland Rau
15:35-15:50	General Discussion	
15:50-16:10	<i>Coffee Break</i>	
16:10-16:35	How heterogeneity and non-senescent mortality affect the shape of the distribution of lifespans	Trifon Missov
16:35-17:00	Pace and shape of lifetable vs. actual distributions of lifespans	José Manuel Aburto and James Vaupel
17:00-17:15	Discussion	Elisabetta Barbi
17:15-17:30	General Discussion	
17:30-18:00	Discussion of what are the most innovative, exciting and important directions for research on longevity	Chair: James Vaupel

18:00-19:00

Dinner

19:00-20:00

Further Discussion of Directions for Research on Longevity

(CarLo 615, Warnowufer 61)

Post-conference workshop—

Friday May 19:

Celebrating 10 years of MaxNetAging at the MPIDR in Rostock

Morning May 19

Celebrating 10 years of MaxNetAging at the MPIDR in Rostock I

(Chair: Beatrice Michaelis)

9:30-9:45	Opening Remarks	James Vaupel
9:45-10:05	Between 'Gerontocracy' and 'Apocalyptic Demography': A Computational Social Science Perspective on the Policy Debate around Population Aging	Philip Leifeld
10:05-10:25	Intergenerational Transfers and Aging	Fanny Annemarie Kluge
10:25-10:45	Finding Opportunities among the Challenges of an Ageing Workforce	Elaine Dewhurst
10:45-10:55	Response	Discussant: Jutta Gampe
10:55-11:05	General Discussion	
11:05-11:35	<i>Coffee Break</i>	
11:35-11:55	From navigating academia to the study of spatial navigation in older adults	Nadine Diersch
11:55-12:15	Second language acquisition, prosody and music cognition	M. Paula Roncaglia-Denissen
12:15-12:25	Response	Discussant: Arno Villringer
12:25-13:00	General Discussion	

13:00-14:00 Lunch

Celebrating 10 years of MaxNetAging at the MPIDR in Rostock II

(Chair: André Schmandke)

14:00-14:20	TBA	Iain Stott
14:20-14:40	Food, sex and death: exploring the connection	C. Ruth Archer
14:40-14:50	Response	Discussant: Günther Schlee
14:50-15:00	General Discussion	

15:00-15:30 Coffee Break

15:30-18:30 Excursion (optional)
